

第 3 圖為較佳實施例之分解圖：

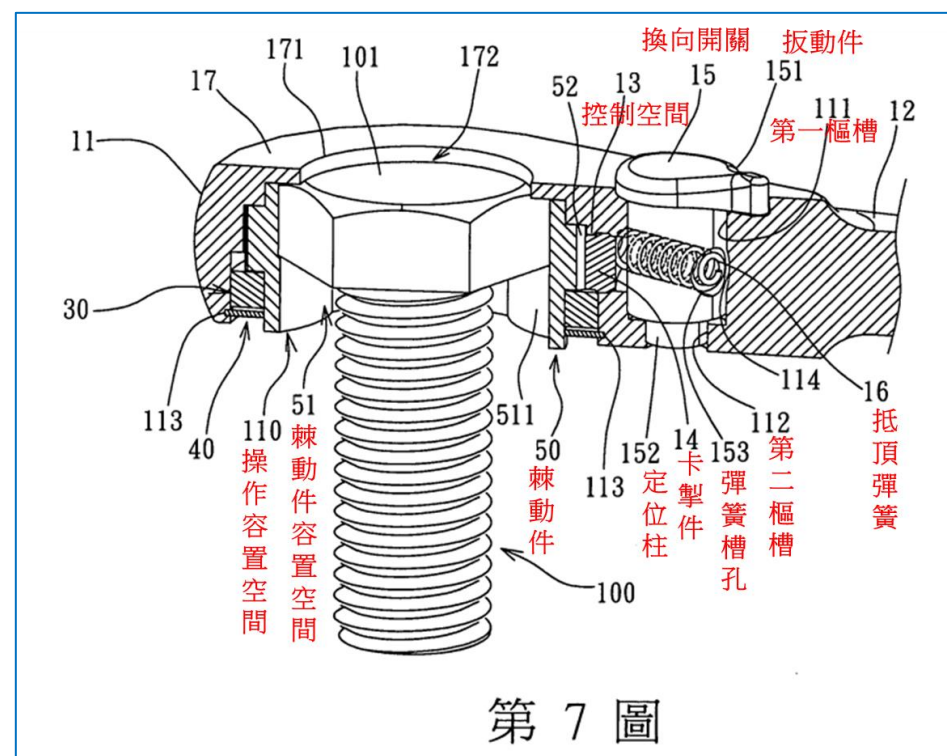

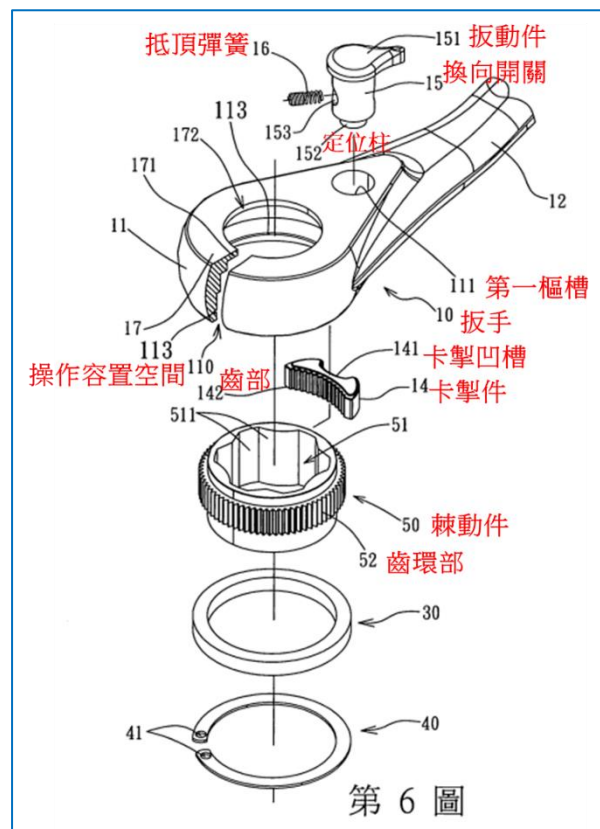

Figure 4 is a perspective view of a mechanical assembly. The assembly includes a rotating part (41) and a sliding part (43). The rotating part (41) features a convex edge (46), a hole (44), a convex part (451), a curved surface segment (452), and a notch (45). The sliding part (43) is shown in a dashed circle, indicating its movement relative to the rotating part.
